

CHANDRA DAS P.V

Java Full Stack Developer

Kerala, India | +91 95397 58961

chandradas.puthanvalapil@gmail.com | [linkedin.com/in/chandradas](https://www.linkedin.com/in/chandradas) | github.com/decode2404

PROFESSIONAL SUMMARY

Results-driven Java Full Stack Developer with expertise in building scalable backend systems and full-stack applications using Java, Spring Boot, and React. Solved 100+ Data Structures and Algorithms problems, demonstrating strong problem-solving ability. Experienced in designing RESTful APIs, optimizing performance, and writing clean, maintainable, production-ready code.

TECHNICAL SKILLS

- **Languages:** Java, SQL, JavaScript, Python
- **Backend:** Spring Boot, Hibernate, REST APIs, JDBC
- **Frontend:** React, HTML5, CSS3
- **Database:** MySQL
- **Core:** Data Structures, OOP, Multithreading
- **Tools:** Git, GitHub, IntelliJ IDEA, VS Code

PROJECTS

AI Mock Interview Trainer | Spring Boot, React

- Developed a scalable full-stack interview simulation platform using Spring Boot and React
- Built RESTful APIs for dynamic question handling and response processing
- Implemented evaluation logic to generate structured performance feedback
- Optimized backend performance for handling concurrent user requests

AI-Powered Expense Tracker | Spring Boot, JavaScript, MySQL

- Built a scalable full-stack expense tracking system with JWT-based authentication, securing all user data and APIs
- Developed REST APIs handling 500+ transactions, reducing response time by **30%** through backend optimization
- Integrated real-time analytics and Chart.js dashboards, improving user engagement by **35%**
- Engineered AI-driven features including spending insights, category prediction, and forecasting with **75%+ accuracy**
- Optimized SQL queries and data processing, reducing retrieval time by **25%**

Wild Animal Detection System | Deep Learning, MATLAB

- Developed a real-time animal detection system using deep learning
- Integrated GPS-based alert system for automated safety notifications
- Processed image data to improve detection accuracy

EXPERIENCE

Full Stack Developer Trainee | Tap Academy

June 2025 – January 2026

- Built full-stack applications using Java, Spring Boot, SQL, HTML, and CSS
- Designed and implemented REST APIs and frontend integrations
- Applied OOPS, data structures, and database design in real-world scenarios
- Improved debugging and problem-solving through hands-on development

EDUCATION

B.Tech – Artificial Intelligence and Data Science
Dhanalakshmi Srinivasan College of Engineering, Coimbatore

2021 – 2025

ACHIEVEMENTS

- Presented Social Media Recommendation System at Project Expo, explaining system design and algorithms to evaluators
- Solved 100+ Data Structures and Algorithms problems on coding platforms
